12 June 1968

MEMORANDUM FOR THE RECORD

SUBJECT: Visit by [] Representatives

1. []

briefly discussed the work now under negotiation with ORD. Their particular concern seemed to be that the capabilities of the rapid search equipment not be oversold since they feel that considerable re-engineering and improvement should be included in the development of any follow-on gear.

2. They described recent reorganization in [] to provide a single point of focus for work for the intelligence community.

3. During most of the visit discussion was very general in nature.
